

## COLLEGES AND UNIVERSITIES WITH 100% TOBACCO-FREE CAMPUS POLICIES

### Updated October 2010

---

This list includes **258** colleges and universities *prohibiting smoking and all forms of tobacco use everywhere on campus* (e.g. no designated smoking areas). For colleges that have announced but not yet implemented a new policy, a date in parentheses indicates when the campus will be 100% tobacco-free.

**Note:** This list does not include colleges with “smoke-free campus” policies that do not address other forms of tobacco use. Prohibiting only cigarette smoking may lead to the unintended consequence of increased use of “smokeless tobacco” products, which are being heavily marketed by the tobacco industry to young adults and others for use in settings where smoking is not allowed. Because these products are not safe alternatives to smoking, it is important that they be addressed in campus policies and related educational activities. In addition, this list only includes institutions where the policy covers the entire college or university, versus just one of their locations.
